

# User Manual for ToolTonic QR Code Scanner

Version 1.0

Domain: <https://tooltonic.io>

Tagline: "AI Powered file first aid"

## 1. Introduction

Welcome to **ToolTonic QR Code Scanner**, a fast, responsive, and AI-powered web application designed for seamless QR code scanning on both mobile and desktop devices. This tool allows users to scan any QR code efficiently, with additional features like brightness adjustment, format selection, and high-quality previews.

This manual provides a detailed guide on how to use the **ToolTonic QR Code Scanner**, its features, and best practices for optimal performance.

## 2. Key Features

- ☑ **Fully Responsive Design** – Works flawlessly on mobile, tablet, and desktop.
- ☑ **AI-Powered Scanning** – Accurately scans all types of QR codes.
- ☑ **User-Friendly Interface** – Simple drag-and-drop or click-to-upload options.
- ☑ **Real-Time Preview** – See scanned results instantly.
- ☑ **Download & Share Options** – Save or share scanned QR data in preferred

formats.

- ☑ **SEO** – Designed for high traffic.
- ☑ **Social Media Integration** – Share results directly to platforms like Twitter, Facebook, and WhatsApp.
- ☑ **Dark/Light Mode** – Adjust theme based on preference.
- ☑ **Error-Free Performance** – Smooth scanning with no lag.

## 3. How to Use the QR Code Scanner

### 3.1 Accessing the Tool

1. Open your browser and visit <https://tooltonic.io>.
2. The **QR Code Scanner** tool will load automatically.

### 3.2 Uploading a QR Code

You can upload a QR code in two ways:

- **Drag & Drop:** Simply drag an image file containing a QR code and drop it into the designated area.
- **Click to Browse:** Click the "**Upload QR Code**" button to select an image from your device.

### 3.3 Scanning & Previewing

- Once uploaded, the AI-powered scanner will automatically detect and decode the QR code.

- A **real-time preview** of the scanned data will appear.
- Adjust **brightness** or **contrast** if needed for better readability.

### 3.4 Downloading & Sharing

- **Download:** Click the "**Download**" button to save the scanned data as a `.txt` or `.png` file.
- **Share:** Use social media icons (Twitter, Facebook, WhatsApp) to share results instantly.

### 3.5 Advanced Options

- **Change Output Format:** Select from `.txt`, `.png`, or `.jpeg`.
- **Adjust Brightness/Contrast:** Use sliders for optimal scanning.
- **Reset/Undo:** Revert changes if needed.
